

Autodesk Acquires T-Splines Modeling Technology Assets

Dec 22, 2011

Transaction to Strengthen Free-form Surface Modeling Capabilities

SAN RAFAEL, Calif.--(BUSINESS WIRE)--Dec. 22, 2011-- [Autodesk, Inc.](#) (NASDAQ:ADSK) has acquired certain technology-related assets from T-Splines Inc., a privately-held surface modeling software company, based in Utah. Terms of the transaction were not disclosed.

"The technology acquisition will strengthen our [Digital Prototyping](#) portfolio with more flexible free-form modeling and will help achieve even closer integration between industrial design and engineering workflows," said [Buzz Kross](#), senior vice president, Manufacturing Industry at Autodesk. "T-Splines technology will benefit designers and engineers that require watertight surfaces for downstream analysis and manufacturing."

Business Outlook

This transaction is expected to have no impact on guidance issued on November 15, 2011.

Safe Harbor Statement

This press release contains forward-looking statements that involve risks and uncertainties, including statements regarding: the impact of the acquisition on Autodesk's product and services offerings, the impact of the acquired technology on Autodesk's products and services capabilities, and the impact of the acquisition on end-user functionality and workflow integration. Factors that could cause actual results to differ materially include the following: difficulties encountered in integrating T-Splines' technology; costs related to the acquisition; whether certain market segments grow as anticipated; the competitive environment in the software industry and competitive responses to the acquisition; our success developing new products or modify existing products and the degree to which these gain market acceptance; general market and business conditions; the timing and degree of expected investments in growth opportunities; pricing pressure; failure to achieve continued cost reductions and productivity increases; changes in the timing of product releases and retirements; failure of key new applications to achieve anticipated levels of customer acceptance; failure to achieve continued success in technology advancements; interruptions or terminations in the business of our consultants or third party developers; the expense and impact of legal or regulatory proceedings; and unanticipated impact of accounting for acquisitions.

Further information on potential factors that could affect the financial results of Autodesk are included in the company's annual report on Form 10-K for the year ended January 31, 2011, and Form 10-Q for the quarter ended October 31, 2011, which are on file with the Securities and Exchange Commission. Autodesk does not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

About Autodesk

Autodesk, Inc., is a leader in [3D design](#), engineering and entertainment software. Customers across the manufacturing, architecture, building, construction, and media and entertainment industries -- including the last 16 Academy Award winners for Best Visual Effects -- use Autodesk software to design, visualize and simulate their ideas. Since its introduction of AutoCAD software in 1982, Autodesk continues to develop the broadest portfolio of state-of-the-art software for global markets.
