

Autodesk, Inc. Announces Fiscal 2020 First Quarter Results

May 23, 2019

Strong Growth Across All Regions; Momentum in Construction Drives Cloud ARR Up 164%

SAN RAFAEL, Calif., May 23, 2019 /PRNewswire/ -- [Autodesk, Inc.](https://www.autodesk.com) (NASDAQ: ADSK) today reported financial results for the first quarter of fiscal 2020.

All growth rates are compared to the first quarter of fiscal 2019 unless otherwise noted. A reconciliation of GAAP to non-GAAP results is provided in the accompanying tables. For definitions, please view the Glossary of Terms later in this document.

- Total ARR increased 33 percent to \$2.83 billion;
- Billings were \$798 million; adjusting for adoption of ASC 606, billings increased 40 percent;
- Total revenue increased 31 percent to \$735 million; recurring revenue represents 96 percent of total;
- GAAP operating margin was 3 percent, up 13 percentage points;
- Non-GAAP operating margin was 18 percent, up 13 percentage points;
- GAAP diluted EPS was \$(0.11); Non-GAAP diluted EPS of \$0.45;
- Cash flow from operating activities was \$221 million; free cash flow was \$207 million

"We are off to a strong start in fiscal 2020 with billings and free cash flow coming in at or above expectations and great momentum across the entire business," said Andrew Anagnost, Autodesk president and CEO. "We are particularly pleased with the performance of our Construction portfolio, where we have started realizing both the sales and technology synergies we envisioned when we acquired PlanGrid and BuildingConnected. Overall, we are on track to achieve our fiscal 2020 ARR and free cash flow guidance and are reaffirming our fiscal 2023 targets."

"Our solid execution during the growth phase of the business model transition drove 33% ARR growth and enabled significant margin expansion," said Scott Herren, Autodesk CFO. "All product categories and geographies made solid contributions to our strong start in the first quarter, and market demand remains robust. Over the last 12 months, we have generated \$550 million in free cash flow, positioning us well to hit our fiscal 2020 target of \$1.35 billion."

First Quarter Fiscal 2020 Financial Highlights

- Total ARR increased 33 percent to \$2.83 billion as reported, and 32 percent on a constant currency basis. On a sequential basis, total ARR increased 3 percent as reported, and on a constant currency basis.
- Subscription plan ARR increased 70 percent to \$2.38 billion as reported, and 69 percent on a constant currency basis. On a sequential basis, subscription plan ARR increased 8 percent as reported, and on a constant currency basis. Subscription plan ARR includes \$505 million related to the maintenance-to-subscription (M2S) program.
- Maintenance plan ARR decreased 38 percent to \$448 million as reported, and 40 percent on a constant currency basis. On a sequential basis, maintenance plan ARR decreased 18 percent as reported, and 19 percent on a constant currency basis.
- Core ARR increased 29 percent to \$2.65 billion. On a sequential basis, core ARR increased 1 percent.
- Cloud ARR increased 164 percent to \$181 million. Excluding fourth quarter acquisitions, cloud ARR increased 43 percent to \$98 million. On a sequential basis, total cloud ARR increased 43 percent.
- Net revenue retention rate was within the fiscal 2019 range of approximately 110 to 120 percent.
- Total revenue increased 31 percent to \$735 million as reported, and 30 percent on a constant currency basis.
- Total recurring revenue in the first quarter was 96 percent of total revenue, compared to 95 percent in the first quarter last year.
- GAAP operating income was \$25 million compared to a loss of \$(55) million in the first quarter last year. GAAP operating margin was 3 percent, up 13 percentage points year-over-year. The increase was driven by an increase in revenue, operating leverage, and lower restructuring costs.
- Total non-GAAP operating income was \$132 million compared to \$29 million in the first quarter last year. Non-GAAP operating margin was 18 percent, up 13 percentage points year-over-year. The increase was driven by an increase in revenue and operating leverage.
- GAAP diluted net loss per share was \$(0.11), compared to GAAP diluted net loss per share of \$(0.38) in the first quarter last year.
- Non-GAAP diluted net income per share was \$0.45, compared to non-GAAP diluted net income per share of \$0.06 in the

first quarter last year.

- Billings were \$798 million; adjusting for adoption of ASC 606, billings increased 40 percent.
- Deferred revenue increased 19 percent to \$2.15 billion. The increase is primarily related to the increase in subscription plan billings as well as recent acquisitions. Unbilled deferred revenue at the end of the first quarter was \$589 million, a decrease of \$2 million compared to the fourth quarter of fiscal 2019. The decrease is primarily due to the normal seasonality of EBA billings. Total deferred revenue (deferred revenue plus unbilled deferred revenue) was \$2.74 billion, an increase of 24 percent compared to the first quarter last year.
- Cash flow from operating activities was \$221 million, an increase of \$238 million compared to the first quarter last year. Free cash flow was \$207 million, an increase of \$240 million compared to the first quarter last year.

First Quarter Fiscal 2020 Business Highlights

Net Revenue by Geographic Area

(In millions, except percentages)	Three months ended April 30,		Change compared to prior fiscal year		Constant currency change compared to prior fiscal year	
	2019	2018	\$	%	%	
Net Revenue:						
Americas						
U.S.	\$ 249.1	\$ 195.9	\$ 53.2	27 %		*
Other Americas	46.7	37.6	9.1	24 %		*
Total Americas	295.8	233.5	62.3	27 %	27	%
EMEA	297.2	220.9	76.3	35 %	31	%
APAC	142.5	105.5	37.0	35 %	36	%
Total Net Revenue	\$ 735.5	\$ 559.9	\$ 175.6	31 %	30	%
Emerging Economies	\$ 87.9	\$ 65.2	\$ 22.7	35 %	35	%

* Constant currency data not provided at this level.

Net Revenue by Product Family

Our product offerings are focused in four primary product families: Architecture, Engineering and Construction ("AEC"), AutoCAD and AutoCAD LT, Manufacturing ("MFG"), and Media and Entertainment ("M&E").

(In millions, except percentages)	Three months ended		Change compared to prior fiscal year	
	April 30, 2019	April 30, 2018	\$	%
AEC	\$ 304.3	\$ 221.8	\$ 82.5	37 %
AutoCAD and AutoCAD LT	213.2	155.6	57.6	37 %
MFG	167.5	135.4	32.1	24 %
M&E	45.5	41.8	3.7	9 %
Other	5.0	5.3	(0.3)	(6) %
	\$ 735.5	\$ 559.9	\$ 175.6	31 %

Business Outlook

The following are forward-looking statements based on current expectations and assumptions, and involve risks and uncertainties, some of which are set forth below under "Safe Harbor Statement." Autodesk's business outlook for the second quarter and full year fiscal 2020 assumes, among other things, a continuation of the current economic environment and foreign exchange currency rate environment. A reconciliation between the fiscal 2020 GAAP and non-GAAP estimates is provided below or in the tables following this press release.

Second Quarter Fiscal 2020

Q2 FY20	
Q2 FY20 Guidance Metrics (ending July 31, 2019)	
Revenue (in millions)	\$782 - \$792
EPS GAAP	\$0.13 - \$0.17
EPS non-GAAP (1)	\$0.59 - \$0.63

(1) Non-GAAP earnings per diluted share excludes \$0.37 related to stock-based compensation expense, \$0.08 for the amortization of acquisition-related intangibles, \$0.04 related to acquisition related costs, and \$(0.03) related to GAAP-only tax charges.

Full Year Fiscal 2020

	FY20
FY20 Guidance Metrics	(ending January 31, 2020)
Total ARR (in millions)	\$3,500 - \$3,550 Up 27% - 29%
Billings (in millions)	\$4,050 - \$4,150 Up 50% - 53%
Revenue (in millions)	\$3,250 - \$3,300 Up 26% - 28%
GAAP spend growth (1)	Approx. 12%
Non-GAAP spend growth (2)	Approx. 9%
EPS GAAP (1)	\$0.83 - \$1.02
EPS non-GAAP (3)	\$2.71 - \$2.90
Free cash flow	Approx. \$1.35 billion

- (1) GAAP spend growth increased by 2 percentage points versus our prior guidance. This resulted in a corresponding reduction in GAAP EPS. The change in outlook is due primarily to stock-based compensation, as well as accounting adjustments associated with our fourth quarter acquisitions.
- (2) Non-GAAP spend excludes \$326 million related to stock-based compensation expense, \$74 million for the amortization of acquisition-related intangibles, and \$38 million for acquisition related costs.
- (3) Non-GAAP earnings per diluted share excludes \$1.47 related to stock-based compensation expense, \$0.33 for the amortization of acquisition-related intangibles, \$0.18 related to acquisition related costs, \$0.02 related to losses on strategic investments and dispositions, and \$(0.12) related to GAAP-only tax charges.

The second quarter and full year fiscal 2020 outlook assume a projected annual effective tax rate of 34 percent and 18 percent for GAAP and non-GAAP results, respectively. Shifts in geographic profitability continue to impact the annual effective tax rate due to significant differences in tax rates in various jurisdictions. Thus, assumptions for the annual effective tax rate are evaluated regularly and may change based on the projected geographic mix of earnings.

Earnings Conference Call and Webcast

Autodesk will host its first quarter conference call today at 5:00 p.m. ET. The live broadcast can be accessed at <http://www.autodesk.com/investor>. A transcript of the opening commentary will also be available following the conference call.

A replay of the broadcast will be available at 7:00 p.m. ET at <http://www.autodesk.com/investor>. This replay will be maintained on Autodesk's website for at least 12 months.

Investor Presentation Details

An investor presentation providing additional information can be found at <http://www.autodesk.com/investor>.

Glossary of Terms

Annualized Recurring Revenue (ARR): Represents the annualized value of our average monthly recurring revenue for the preceding three months. "Maintenance plan ARR" captures ARR relating to traditional maintenance attached to perpetual licenses. "Subscription plan ARR" captures ARR relating to subscription offerings. Refer to the definition of recurring revenue below for more details on what is included within ARR. Recurring revenue acquired with the acquisition of a business is captured when total subscriptions are captured in our systems and may cause variability in the comparison of this calculation.

ARR is currently one of our key performance metrics to assess the health and trajectory of our business. ARR should be viewed independently of revenue and deferred revenue as ARR is a performance metric and is not intended to be combined with any of these items.

Billings: Total revenue plus the net change in deferred revenue from the beginning to the end of the period.

Cloud Service Offerings: Represents individual term-based offerings deployed through web browser technologies or in a hybrid software and cloud configuration. Cloud service offerings that are bundled with other product offerings are not captured as a separate cloud service offering.

Constant Currency (CC) Growth Rates: We attempt to represent the changes in the underlying business operations by eliminating fluctuations caused by changes in foreign currency exchange rates as well as eliminating hedge gains or losses recorded within the current and comparative periods. We calculate constant currency growth rates by (i) applying the applicable prior period exchange rates to current period results and (ii) excluding any gains or losses from foreign currency hedge contracts that are reported in the current and comparative periods.

Core Business: Represents the combination of maintenance, product, and EBA.

Enterprise Business Agreements (EBAs): Represents programs providing enterprise customers with token-based access or a fixed maximum number of seats to a broad pool of Autodesk products over a defined contract term.

Free Cash Flow: Cash flow from operating activities minus capital expenditures.

Maintenance Plan: Our maintenance plans provide our customers with a cost effective and predictable budgetary option to obtain the productivity benefits of our new releases and enhancements when and if released during the term of their contracts. Under our maintenance plans, customers are eligible to receive unspecified upgrades when and if available, and technical support. We recognize maintenance revenue over the term of the agreements, generally one year.

Net Revenue Retention Rate: Measures the year-over-year change in ARR for the population of customers that existed one year ago ("base

customers"). Net revenue retention rate is calculated by dividing the current period ARR related to base customers by the total ARR from one year ago. ARR is based on USD reported revenue, and fluctuations caused by changes in foreign currency exchange rates and hedge gains or losses have not been eliminated. ARR related to acquired companies is excluded from the calculation for at least one year from integration.

Other Revenue: Consists of revenue from consulting, training and other services, and is recognized over time as the services are performed. Other Revenue also includes software license revenue from the sale of products that do not incorporate substantial cloud services and is recognized up front.

Product Subscription: Provides customers the most flexible, cost-effective way to access and manage 3D design, engineering, and entertainment software tools. Our product subscriptions currently represent a hybrid of desktop and SaaS functionality, which provides a device-independent, collaborative design workflow for designers and their stakeholders.

Recurring Revenue: Consists of the revenue for the period from our traditional maintenance plans and revenue from our subscription plan offerings. It excludes subscription revenue related to consumer product offerings, select Creative Finishing product offerings, education offerings, and third party products. Recurring revenue acquired with the acquisition of a business is captured when total subscriptions are captured in our systems and may cause variability in the comparison of this calculation.

Subscription Plan: Comprises our term-based product subscriptions, cloud service offerings, and EBAs. Subscriptions represent a combined hybrid offering of desktop software and cloud functionality which provides a device-independent, collaborative design workflow for designers and their stakeholders. With subscription, customers can use our software anytime, anywhere, and get access to the latest updates to previous versions.

Subscription Revenue: Includes subscription fees from product subscriptions, cloud service offerings, and EBAs.

Total Deferred Revenue: Is the sum of total short term, long term, and unbilled deferred revenue.

Unbilled Deferred Revenue: Unbilled deferred revenue represents contractually stated or committed orders under early renewal and multi-year billing plans for subscription, services and maintenance for which the associated deferred revenue has not been recognized. Under FASB Accounting Standards Codification ("ASC") Topic 606, unbilled deferred revenue is not included as a receivable or deferred revenue on our Condensed Consolidated Balance Sheet.

Safe Harbor Statement

This press release contains forward-looking statements that involve risks and uncertainties, including statements in the paragraphs under "Business Outlook" above and other statements about our short-term and long-term goals, and other statements regarding our strategies, market and product positions, performance and results. There are a significant number of factors that could cause actual results to differ materially from statements made in this press release, including: failure to achieve our revenue and profitability objectives; failure to successfully manage transitions to new business models and markets; failure to maintain cost reductions or otherwise control our expenses; difficulty in predicting revenue from new businesses and the potential impact on our financial results from changes in our business models; general market, political, economic, and business conditions; any imposition of new tariffs or trade barriers; the impact of non-cash charges on our financial results; fluctuation in foreign currency exchange rates; the success of our foreign currency hedging program; our performance in particular geographies, including emerging economies; the ability of governments around the world to meet their financial and debt obligations, and finance infrastructure projects; weak or negative growth in the industries we serve; slowing momentum in subscription billings or revenues; difficulties encountered in integrating new or acquired businesses and technologies; the inability to identify and realize the anticipated benefits of acquisitions; the financial and business condition of our reseller and distribution channels; dependence on and the timing of large transactions; pricing pressure; unexpected fluctuations in our annual effective tax rate; significant effects of tax legislation and judicial or administrative interpretation of tax regulations, including the Tax Cuts and Jobs Act; the timing and degree of expected investments in growth and efficiency opportunities; changes in the timing of product releases and retirements; and any unanticipated accounting charges. Our estimates as to tax rate are based on current tax law, including current interpretations of the Tax Cuts and Jobs Act, and could be affected by changing interpretations of that Act, as well as additional legislation and guidance around that Act.

Further information on potential factors that could affect the financial results of Autodesk are included in Autodesk's Annual Report on Form 10-K for the fiscal year ended January 31, 2019, which is on file with the U.S. Securities and Exchange Commission. Autodesk disclaims any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

About Autodesk

Autodesk makes software for people who make things. If you've ever driven a high-performance car, admired a towering skyscraper, used a smartphone, or watched a great film, chances are you've experienced what millions of Autodesk customers are doing with our software. Autodesk gives you the power to make anything. For more information visit autodesk.com or follow @autodesk.

Autodesk, Inc.
Reconciliation of GAAP financial measures to non-GAAP financial measures
(In millions, except per share data)

To supplement our consolidated financial statements presented on a GAAP basis, we provide investors with certain non-GAAP measures including non-GAAP net income per share, non-GAAP operating margin, non-GAAP spend, non-GAAP EPS and free cash flow. For our internal budgeting and resource allocation process and as a means to evaluate period-to-period comparisons, we use non-GAAP measures to supplement our consolidated financial statements presented on a GAAP basis. These non-GAAP measures do not include certain items that may have a material impact upon our future reported financial results. We use non-GAAP measures in making operating decisions because we believe those measures provide meaningful supplemental information regarding our earning potential and performance for management by excluding certain expenses and charges that may not be indicative of our core business operating results. For the reasons set forth below, we believe these non-GAAP financial measures are useful to investors both because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision-making and (2) they are used by our institutional investors and the analyst community to help them analyze the health of our business. This allows investors and others to better understand and evaluate our operating results and future prospects in the same manner as management, compare financial results across accounting periods and to those of peer companies and to better understand the long-term performance of our core business. We also use some of these measures for purposes of determining company-wide incentive compensation.

There are limitations in using non-GAAP financial measures because non-GAAP financial measures are not prepared in accordance with GAAP and may be different from non-GAAP financial measures used by other companies. The non-GAAP financial measures are limited in value because they exclude certain items that may have a material impact upon our reported financial results. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which charges are excluded from the non-GAAP financial measures. We compensate for these limitations by analyzing current and future results on a GAAP basis as well as a non-GAAP basis and also by providing GAAP measures in our public disclosures. The presentation of non-GAAP financial information is meant to be considered in addition to, not as a substitute for or in isolation from, the directly comparable financial measures prepared in accordance with GAAP. We urge investors to review the reconciliation of our

non-GAAP financial measures to the comparable GAAP financial measures included in this presentation, and not to rely on any single financial measure to evaluate our business.

The following table shows Autodesk's non-GAAP results reconciled to GAAP results included in this release.
