SAFE HARBOR

Each of the presentations today will contain forward looking statements about strategies, products, future results, performance or achievements, financial and otherwise, including statements regarding our business model transformation, guidance for the third and fourth quarters of fiscal year 2016, our long term financial goals, our M&A strategy, our capital allocation, and our stock repurchase program. These statements reflect management’s current expectations, estimates and assumptions based on the information currently available to us. These forward-looking statements are not guarantees of future performance and involve significant risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from results, performance or achievements expressed or implied by the forward-looking statements contained in these presentations, such as a failure to maintain subscriptions, ARR, ARPS, billings, revenue, deferred revenue and operating margins growth; failure to maintain spend management; failure to successfully manage transitions to new business models and markets, including the introduction of additional ratable revenue streams; our continuing efforts to attract customers to our cloud-based offerings and our planned end of sale of perpetual licenses; failure to successfully expand adoption of our products, slowing momentum, or declines, in subscriptions, ARPS, billings, ARR, revenue, deferred revenue and operating margins; difficulty in predicting those financial metrics from new businesses; and the potential impact on our financial results from changes in our business models.

A discussion of factors that may affect future results is contained in our most recent SEC Form 10-K and Form 10-Q filings available at www.sec.gov, including descriptions of the risk factors that may impact us and the forward-looking statements made in these presentations.
